## Project Design Phase-II Technology Stack (Architecture & Stack)

| Date          | 05 October 2022                    |  |
|---------------|------------------------------------|--|
| Team ID       | PNT2022TMID54477                   |  |
| Project Name  | Project – Plasma Donor Application |  |
| Maximum Marks | 4 Marks                            |  |

## **Technical Architecture:**

The Deliverable shall include the architectural diagram as below and the information as per the table 1 & table 2

**Table-1 : Components & Technologies:** 

| S.No | Component               | Description  | Technology                       |
|------|-------------------------|--|----------------------------------|
| 1.   | User Interface          | User interact with application using form, login, Request notification | Python FLASK, HTML, CSS          |
| 2.   | Registration(Donor)     | Donors register in the application to Donate theplasma                 | Python FLASK, HTML, CSS, IBM DB2 |
| 3.   | Registration(Recipient) | Recipients register in the application to receive aDonor               | Python FLASK, HTML, CSS, IBM DB2 |
| 4.   | Notification            | Sends the notification to the Donors                                   | Python FLASK, HTML, CSS, IBM DB2 |
| 5.   | SendGrid                | Sends email alert to recipients  | SendGrid                         |
| 6.   | Cloud Database          | Database Service on Cloud  | IBM DB2                          |
| 7.   | Kubernetes Database     | Run Containerized application  | IBM Kubernetes                   |

## **Table-2: Application Characteristics:**

| S.No | Characteristics        | Description                              | Technology   |
|------|------------------------|--|--------------|
| 1.   | Open-Source Frameworks | Docker is used for Open Source Framework | DOCKER       |
| 2.   | Scalable Architecture  | It connected with Scalable Architecture  | IBM DB2      |
| 3.   | Availability           | This application is anytime accessible   | Python FLASK |

| S.No | Characteristics | Description                                  | Technology |
|------|-----------------|--|------------|
| 4.   | Performance     | Record resource requests and save registered | IBM DB2    |
|      |                 | information.                                 |            |
